### Theme: Evaluation

- all corrections are made
- we dealt with the tasks and questions of the evaluation:
  - we will record whether the test person has previous knowledge or not
  - the person will work on some missions with the program before he/she answers questions about it
  - the screen capture tool *Camstudio 2* should be used if possible
  - everyone tries to test two persons till next week
- the executable .jar file has to be generated
