

## Protocol

Date 4.1.2006  
Time 15:00 bis 16:30  
Place SEM1/019  
Participants Alexander, Carola, Katrin, Linda, Nico, Marc, Ria, Ronny  
Protocol Carola

### Theme: programming

- we will store pictures in the save-file
- it should be possible to make an object unmoveable by using hot keys
- the new menu for changing objects and grid works
- when the program crashes a problem with the main menu occurs (it is not painted)
- there are problems with changing the language
- the first time the program starts, the user will be asked which options (language, mode) he prefers, after that the program start with the intro

### Theme: design details

- New idea for the intro: maybe we can show reverse design

### Checklist:

| <i>Who?</i> | <i>What?</i>   | <i>Done?</i> |
|-------------|--|--------------|
| Katrin, Ria | <ul style="list-style-type: none"><li>• Work on conception for „learn“</li><li>• help menu</li></ul>   |              |
| Marc        | <ul style="list-style-type: none"><li>• Icons for help, options, go to main menu, send to front, send to back, snap to grid, (grid on/off)</li><li>• choose better contrasts for the icons</li><li>• rotation, scale of objects</li></ul>                                |              |
| Ronny       | <ul style="list-style-type: none"><li>• Object behind palette error</li><li>• Shadows</li><li>• menu for „save“, file chooser, file filter</li><li>• color chooser</li></ul>   | ☺            |
| Nico        | <ul style="list-style-type: none"><li>• Different histories for „learn“ and „create“</li><li>• saving of files</li><li>• Tooltips</li><li>• grid space problem</li><li>• care for save menus</li><li>• prepare to delete objects from the palette; load-dialog</li></ul> | ☺            |

| <i>Who?</i> | <i>What?</i>   | <i>Done?</i>      |
|-------------|--|-------------------|
| Alex        | <ul style="list-style-type: none"> <li>• Menu for palette</li> <li>• Menu for grid</li> <li>• preview for grid changes</li> <li>• click problem</li> <li>• integrate user mode in menus</li> <li>• clipping</li> <li>• grid space problem</li> <li>• care for save menu</li> </ul> | <p>☺</p> <p>☺</p> |
| Carola      | <ul style="list-style-type: none"> <li>• Options menu</li> <li>• „first start“-options</li> <li>• overwork the exception handling</li> <li>• intro</li> <li>• xml-parser</li> </ul>  | <p>☺</p>          |
